CUSTOMER PROFILE

The company is a manufacturer and distributor of mattresses and pillows made from viscoelastic foam.

The company was originally based on NASA's research to develop a material that would cushion aircraft seats and improve survivability in the event of an accident.

It is based in Lexington, Kentucky.

BUSINESS CHALLENGE

The company being a huge Organization spread all across the globe. It had several SharePoint sites for different departments and countries. These sites were hosted on different versions of SharePoint, ranging from SharePoint 2010 to 2013.

Challenges were faced by the company:

To manage infrastructure at different geographical locations was challenging.

- The SharePoint sites were not uniform in structure and look.
- Accessibility and permission to sites was not well defined.
- The site governance needed improvement.

SOLUTION

In 2014, May, the company considered its available options for a comprehensive solution, taking a look at SharePoint Online from NDS Global. The company found SharePoint Online (Office365) as the right solution.

NDS Global had the technical expertise to migrate the contents to Office365, as well as a range of experience with different methodologies. The company worked with NDS Global to setup a new office365 sites configured it to support it's requirements.

The contents to migrated were very important, hence the best of the options had to be used. So, NDS Global using its expertise evaluated the right tool for migration of contents to SharePoint online (Office365). The tool was Dell migration suite, formerly know as Quest

NDS global provided a uniform looks to all sites and also created a proper structure for sites with permission hierarchy.

The SharePoint online Solution helped them to meet the following business imperatives:

- Availability of sites 24x7 without VPN connection.
- Reduces Management and Storage Needs for every department site.
- Improved collaboration.

BENEFITS

- Uniformity of site look and feel, across
- Better management of site contents and accessibility
- No overhead of infrastructure management
- High availability of sites every time
- Centralized location to manage all sites
- Sites can be accessed anywhere, no limitation of connecting to VPN
- Reliability
- Compliance with most of the regulatory bodies

TECHNOLOGY
